UPDATE: Twin Beach Property Owners in the RM of Woodlands

1) If your home or cottage has been deemed a write-off by the province and will require demolition as a result of those damages incurred from the 2011 Lake Manitoba flood; the RM of Woodlands would like to hear from you. If so, please contact our Recovery Manager, Al Caron, #204-383-0157 or woodlandsrecovery@mymts.net .

2) The RM Council has passed a resolution and forwarded a letter to Minister Steve Ashton, outlining rationale to support reconsidering the involvement of two departments under his control, namely: Manitoba, Infrastructure and Transportation (Water Stewardship) and Emergency Measures Organization (Disaster Financial Assistance) to participate in the tri-party funding arrangement which would relocate hydro lines from Lots #301 to #327, to instead run alongside the road allowance. We are now awaiting his response and will keep you advised.
